

DASHBOARD CAMERA

#beyondtheroad

Monitor Driving
Behavior Remotely

Reliable Data Stream
While Driving

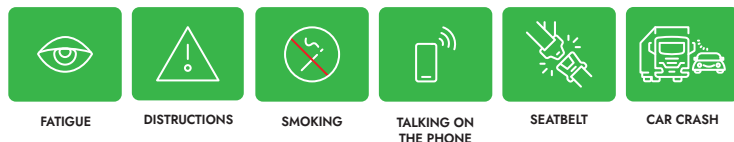

Mobiliz Dashboard Camera Systems enhance **driving safety, ensure that incidents are recorded, and strengthen fleet management.** With live monitoring, access to past recordings, and instant violation alerts, they deliver greater operational visibility and control. All data is securely stored on reliable server infrastructure, supporting detailed reporting and incident analysis.

Within the product range, some models feature Driver Monitoring System (DMS) and Advanced Driver Assistance System (ADAS) technologies that analyze driver behavior, while others stand out with continuous recording and remote access capabilities.

Integrated and external **camera options, optional audio recording, and various storage settings** can be selected according to the intended use.

MB662 Advanced Video Telematics System

Road-Facing and Driver-Facing Dual Cameras
Driver Monitoring System (Seatbelt, Phone Usage, Distraction, Smoking, etc.) (DMS)
Advanced Driver Assistance System (ADAS) Technologies (Forward Collision, Lane Departure, Distance Monitoring)
In-Vehicle Voice Alerts with Multiple Language Options
Live Monitoring
Access to Past Violation Videos via Vehicle Tracking Infrastructure
Remote Download of Video Recordings Stored on MicroSD Card

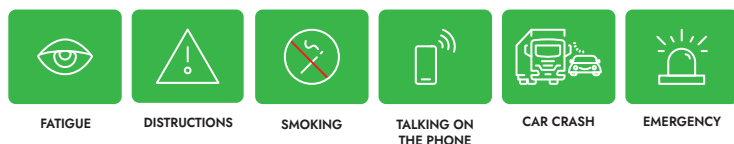

MB671 Advanced Video Telematics System

Integrated Road Camera and Support for Up to Two External Cameras
Driver Monitoring System (Seatbelt, Phone Usage, Distraction, Smoking, etc.) (DMS)
Advanced Driver Assistance System (ADAS) Technologies (Forward Collision, Lane Departure, Distance Monitoring)
In-Vehicle Voice Alerts with Multiple Language Options
Live Monitoring
Access to Past Violation Videos via Vehicle Tracking Infrastructure
Remote Download of Video Recordings Stored on MicroSD Card

MB650 Advanced Video Telematics System

Integrated Road Camera and Support for Up to Four External Cameras
Monitor Support
Driver Monitoring System (Seatbelt, Phone Usage, Distraction, Smoking, etc.) (DMS)
Advanced Driver Assistance System (ADAS) Technologies (Forward Collision, Lane Departure, Distance Monitoring)
In-Vehicle Voice Alerts with Multiple Language Options
Live Monitoring
Access to Past Violation Videos via Vehicle Tracking Infrastructure
Remote Download of Video Recordings Stored on MicroSD Card

MB661 Video Telematics System

Integrated Road Camera with 1080p Full HD Video Recording
Integrated In-Vehicle Camera with 720p Recording
Live Monitoring
Remote Download of Video Recordings Stored on MicroSD Card
24/7 Access to Careless Driving Reports

CAR CRASH

EMERGENCY

MB660 Video Telematics System

Integrated Road Camera with 1080p Full HD Video Recording
Optional Support for One External Camera
Live Monitoring
Remote Download of Video Recordings Stored on MicroSD Card
24/7 Access to Careless Driving Reports

CAR CRASH

EMERGENCY
