# MOBI**RIDE**

Vehicle Pool and Vehicle Sharing Management

*#beyond**theroad***

Optimize Your
In-House Vehicle Operations

Reduce The Cost of
Your In-House Vehicle Operations

Simplify your transportation needs and increase efficiency.

In today's fast-paced business world, **companies** are constantly looking for ways to **optimize their operations** and reduce costs.

With the MOBI**RIDE** Corporate Vehicle Pool Management application, integrated into Mobiliz Tracking Systems, companies can **quickly find solutions to the evolving corporate vehicle usage need of their employees.**

With MOBI**RIDE** reservation management, companies can efficiently plan pool vehicle usage and **facilitate task distribution**. Vehicle pool managers can view employees' needs through the **web and mobile applications, manage them effectively, and generate reports.**

MOBI**RIDE** is a user-friendly application that offers companies **real-time operational solutions for pool vehicle sharing.**

Features That
Make a Difference

Pool managers can track the validity of employees' driver's licences using the MOBIRIDE Integrated Pool Management Application.

They can prevent employees without valid qualifications from driving vehicles, taking measures to ensure safe driving.

Optionally, with the Bluetooth feature of the telematics device, drivers can access keyless vehicle use through the mobile application.

They can remotely or via the mobile application control features such as door locking/unlocking, engine start, and horn activation.

*Compatible with the DT43C / DT435C device.
